

REG-8-002 DEFINITIONS

002.01 Contractor shall mean any person or entity who enters into a contract and undertakes the performance of building, modifying, or dismantling real or personal property and shall include subcontractors. Examples of contractors include, but are not limited to the following: electrical, mechanical, plumbing, paving, finishing, building, heating, construction, roofing, and carpeting.

002.02 Nonresident contractor shall mean a contractor who is not domiciled in nor has maintained a permanent place of business or residence in Nebraska for a period of at least six months.

002.02A To establish residency, a contractor must maintain a place of business in this state for at least six months and not have discontinued this requirement prior to the contract date. If such a contractor has established residency at the time of the contract but discontinues his place of business after the execution thereof, he will lose his resident status and immediately become subject to the nonresident registration and bonding requirements as a nonresident contractor.

002.02B The fact that a nonresident contractor has procured a certificate of authority from the Secretary of State to transact business in Nebraska does not absolve such contractor from the registration and bonding requirements.

(Sections 21-20,105, and 77-3101, R.R.S. 1943. September 15, 1975.)
